PROFESSIONAL SUMMARY

Backend-focused Software Engineer with **3.6+ years** designing and shipping enterprise-grade **REST APIs**, **microservices**, and cloud-native systems on **C#, ASP.NET Core, Entity Framework Core**, and **Microsoft Azure** for Fortune 500 energy, government, and international clients. Skilled in applying **SOLID principles**, **design patterns**, and **dependency injection** to build maintainable, testable architectures, and in engineering secure **identity/authentication systems (OAuth 2.0, OIDC, SAML, JWT)**. Track record of driving **CI/CD automation via Azure DevOps**, modernizing legacy .NET applications to the cloud, and improving system performance and deployment velocity by **30–65%**. Comfortable owning features end-to-end within **Agile/Scrum** teams and mentoring junior engineers.

CORE SKILLS

Languages & Frameworks: C#, .NET Core, ASP.NET Core, Web APIs, REST APIs, Entity Framework Core, LINQ, JavaScript (ES6+)

Architecture & Principles: Microservices, RESTful API Design, SOLID Principles, Dependency Injection, Design Patterns, SignalR

Cloud & DevOps: Microsoft Azure (Azure Functions, App Service, AAD, Blob Storage, Service Bus, Azure SQL), Azure DevOps, CI/CD Pipelines, GitHub Actions, GitLab CI, Git

Security & Identity: OAuth 2.0, OpenID Connect (OIDC), SAML 2.0, JWT, RBAC, SSO, 2FA, Multi-Tenant Architecture, Identity Server

Databases: Microsoft SQL Server, SSMS, MySQL, Oracle PL/SQL, Database Design, Indexing & Query Optimization, Stored Procedures

Frontend: React.js, HTML5, CSS3, Bootstrap 5, jQuery, AJAX

Practices: Agile/Scrum, Unit Testing, Code Review, Performance Optimization, Team Leadership & Mentorship

PROFESSIONAL EXPERIENCE

Software Engineer – .NET Developer

Jan 2023 – Present

Bigscal Technologies Pvt. Ltd. – Surat, Gujarat, India

- Owned end-to-end delivery of **6+ enterprise applications** for Fortune 500, government, and international clients, architecting **ASP.NET Core Web APIs** and **microservices** on **Azure** within Agile/Scrum sprints to meet client-critical deadlines.
- Designed and integrated **REST APIs** connecting **10+ third-party systems**, applying **SOLID principles** and **dependency injection** to keep services modular and testable, reducing manual data handling by **40%**.
- Engineered secure, **multi-tenant authentication systems** using **OAuth 2.0, OIDC, SAML 2.0, JWT**, and **RBAC**, achieving **zero authentication-related incidents** post-launch across all deployments.
- Led modernization of a legacy **.NET Framework 4.5.1** application to **.NET Core**, refactoring core services with **Entity Framework Core** and applying **design patterns** to improve throughput by **35%** and unlock cloud-native **Azure** deployment.
- Built and maintained **Azure DevOps CI/CD pipelines** with automated build, test, and release stages, cutting deployment time from 1+ hours to under 10 minutes and tripling release cadence.
- Diagnosed and resolved **SQL Server/MySQL** performance bottlenecks through query tuning and indexing strategy, cutting report generation time by **50%**.
- Mentored junior developers through structured code reviews and pair programming on **Git**-based workflows, lifting team code quality scores by **25%**.

KEY PROJECTS

Capacity Loss Evaluation & Reporting System

Cheniere Energy, USA

Sep 2025 – Present

.NET Core, ASP.NET Core, SQL Server, PI System, Denodo, Maximo, REST APIs, Azure

- Designed a real-time **analytics platform** integrating **REST APIs** across PI System, Denodo, and Maximo to monitor capacity loss across multiple LNG facilities; automated reporting pipeline cut manual analysis effort by **60%**.

Custom Identity Provider – Multi-Tenant SSO

BeFree, India

Jun 2025 – Sep 2025

.NET Core, ASP.NET Core, React.js, OAuth 2.0, OpenID Connect, SAML 2.0, JWT, 2FA, RBAC

- Architected a multi-tenant **SSO identity platform** supporting **OAuth 2.0, OIDC, and SAML 2.0** with self-service tenant provisioning, cutting client onboarding time by **70%**.

Kiosk Management & Auto-Update System

RoomMatik, Spain

Mar 2025 – Jun 2025

.NET WinForms, C#, Azure Blob Storage, Desktop Application, REST APIs

- Built a centralized **kiosk management platform** with a delta-update mechanism on **Azure Blob Storage**, shrinking update package size by **65%** and minimizing kiosk downtime across the fleet.

Traveler Registration Form Management System RoomMatik, Spain Jan 2025 – Mar 2025
.NET Core 8, ASP.NET Core Web API, SQL Server, Azure, PDF Generation

- Delivered a **compliance automation platform** via **ASP.NET Core Web APIs** for traveler registration and digital document generation, trimming manual processing time by **80%**.

Contract Management System Cheniere Energy, USA Jun 2024 – Jan 2025
.NET Framework 4.5.1, .NET Core, Azure DevOps, SQL Server, REST APIs, CI/CD

- Engineered a dual **contract management system** with third-party cargo tracking **REST API** integration, reducing manual entry by **80%**, and automated reminder workflows achieving **90% adherence**.

GIFTCity Power Management System Government of India Jun 2023 – Jun 2024
.NET Core, MySQL, Payment Gateway Integration, SMS Integration, RBAC

- Developed a government-grade **utility billing platform** processing **1,000+ monthly transactions** via integrated payment gateway, with SMS notifications at **99.9% delivery reliability** across 15+ **RBAC**-secured roles.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering 2019 – 2023
Sagar Institute of Research & Technology, Bhopal, India
